Corian® benchtops  
for your kitchen.

Give your kitchen a flavour of its own with Corian®.

A long or wide benchtop can be a continuous surface due to no ugly open joins with Corian®.

### What is Corian®?

Corian® is a solid surface material made only by DuPont from a special formulation of natural minerals and pure acrylic. And it combines the strengths of other materials to deliver a surface with unsurpassed practical advantages. Corian® can be heat formed like glass, has the feel of silk, the hygienic properties of stainless steel, a high quality appearance like natural stone, renewable features similar to timber, plus no ugly joints to catch dirt!

Designed for modern living, Corian® gives your home the attention it deserves. It provides the freedom to create inspired interior designs. It's simply an ideal material for bringing your ideas to life in a way that's all your own.

There are lots of materials, but only one is Corian®. There are lots of homes, but only one is yours. And that should be the best reason of all to welcome Corian® into your home.

Corian® adopts healthy living as it is non-porous. As a result it will not promote the growth of bacteria.

The non-porosity nature of Corian® means that liquids can't be absorbed into the surface – so stains are never permanent.

Due to the properties of Corian® it can be renewed or repaired without having to replace the entire benchtop.

Corian® is warm and inviting.

Corian® is a renewable and repairable material - meaning scratches and chips are also never permanent!

# Corian® Upgrade Features.

A Corian® benchtop gives you the design upgrade options such as a fully integrated Corian® Mixa® sink and tile cove to give your kitchen the easy cleaning properties you only dream of.

A tile cove ensures that a smooth join exists where the glass/tile or other splashback material joins the benchtop and creates a sleek, seamless look that is easy to keep clean and ensures no grime build up.

Integrated heat rods are just one of the many design options available with Corian®.

### Heat Rods

Stainless steel heat rods can be fully integrated into your Corian® benchtop. This clever design feature works like a heat mat without the clutter, as well as giving your kitchen that “unique” look. Heat rods can also be removed for easy cleaning.

A routed drainage area integrated directly into your Corian® benchtop offers a distinctive looking design for easier wipe up and clean.

### Sink Colours.

With 2 integrated Corian® Sink colours and a range of fashionable Corian® colours to choose from for your benchtop, it's easy to find a combination that expresses your attitude, personality and sense of style.

Glacier White

Cameo White

## The Corian® Collection of Sinks

Let your ideas flow. With a range of shapes and sizes of Corian® Sinks, your creativity doesn't have to end at the edge of the sink. Make your sink an integral part of your overall design. Make colours and textures flow effortlessly together. With a seamless flow between your kitchen benchtop and sink, you can create a perfect blend of high style and healthy living.

### Mounting a Corian® sink.

Create a fully integrated sink space with a seamed undermounted Corian® Sink.

Seamed Undermount

# Integrated single kitchen sinks.

804

L 444 x W 444 x D 222 mm

805

L 444 x W 494 x D 220 mm

809

L 317 x W 368 x D 181 mm

The non-porous nature of Corian® means no open sink joins or seams - and time for much more creative endeavours than cleaning!

# Integrated double kitchen sinks.

**10 Year  
Warranty**

## Sink Colours.

The Mixa® Sink brings Corian® colour and life back to your sinkspace. With sink wall surrounds available in 20 fashionable colours and benchtops available in a range of stylish Corian® colours, a massive array of opportunities for coordinating and contrasting colour exist with the Mixa® Sink.

# The Corian® Collection of Mixa® Sinks.

Add a touch of contemporary style and sophistication to your kitchen with the Corian® Mixa® Sink. The Mixa® Sink cleverly integrates a stainless steel sink base with Corian® walls which flow seamlessly into your benchtop. With a continual visual line of colour and a touch of stainless steel to match with other elements in your kitchen, the Mixa® Sink allows you to create a totally integrated kitchen sinkspace.

# Corian® - At Home in Geoff Jansz Kitchen Designs.

## Designing your dream kitchen

In designing your kitchen, it's vital to keep in mind your future needs, as well as your present desires. How will your kitchen be used in the next 5 to 10 years? Will you have growing children to accommodate or will you soon find yourself in an empty nest? Master chef and food expert Geoff Jansz says that when it comes to designing (or re-designing) your kitchen, you'll always be glad you took the extra time and effort to get it exactly right.

"Instead of being a place where you simply cook (and then quickly escape from), your new kitchen is a focal point, 'an entertainment control room' — a place to prepare flavours and food for family and friends."

— Geoff Jansz

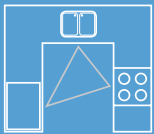

Geoff Jansz,  
Lifestyle Expert

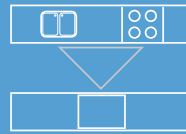

- Tip 1** | Check the benchtop height is practical for the user.
- Tip 2** | Ensure you can move around the kitchen freely; that all cupboard doors open without hitting each other.
- Tip 3** | Maximising your benchtop space is essential. You should have adequate space either side of the sink and cooktop.
- Tip 4** | Remember the cooking triangle. You want easy access from the fridge to the sink to the cooktop. Also consider dishwasher placement.
- Tip 5** | Design a kitchen that suits the style of food you cook. If you cook asian style, for example, should you stick to a wok or consider a deep fryer? If you cook a lot of soups or pastas, are the hotplates the right size for your pots? Do you need larger sinks and drawers?

## The Kitchen Triangle

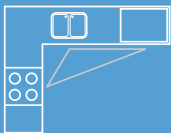

A well-planned triangle — the path linking the fridge, sink and cooktop - is the key to any efficient kitchen. It minimises wasted energy and time. A work triangle will typically take one of the following shapes:

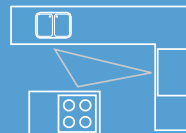

**U-shaped.**  
The most efficient and versatile design, it features maximum bench space on three sides.

**Galley.**  
Parallel walls allow the cook to move easily from one work area to another. Preferred by chefs.

**L-shaped.**  
Suitable for integrating into a large room, this design features two work areas on one wall, and a third on the other.

**Island.**  
Excellent for more than one cook, but needs a larger room. Positioned correctly, and equipped with a cooktop or sink, the island becomes one point of the triangle.

- Tip 6** | Surfaces of the doors and benchtops should be seamless. There should be no food trap spots where bacteria and dirt can build up.
- Tip 7** | Open design. Expect your family and friends to hover while you're preparing and cooking. Your kitchen is an entertainment area, not just a place to cook!
- Tip 8** | Segregation. Keep the food storage and preparation areas separate from the rubbish.
- Tip 9** | The exhaust over the cooktop should be sufficient to minimise cooking fumes. A Downdraft Ventilation System may also be used as a design solution to open up the kitchen space and let the cook interact with family and guests in the adjacent dining room. For further information on Downdraft Ventilation Systems contact the Corian® Service Centre.
- Tip 10** | A glass of wine or your favourite drink should always be at hand. Cheers!

A Glacier White benchtop with square edges creates a minimalist look with bright whites and clean design lines.

Create a  
Unique Impact  
with Corian®

Squares edges. Clean lines. Sleek look. Cutting edge. Bright whites. Bold colours. The features of Corian® enable you to create a sculptured look that embraces architecture. Combining other materials such as stainless steel can create your own individual taste. The design possibilities are endless with Corian®.

Striking square edges and contrasting Corian® colours in this kitchen create impact.

## Corian® - At Home in Contemporary and Modern Designs.

Using an interesting mixture of colours and materials to contrast with your Corian® benchtop can create an appealing kitchen space.

This Corian® Glacier White benchtop features a drop-down edge flowing to the floor.

# Corian® - At Home in Traditional Designs.

This kitchen incorporates timeless colours and materials, with the luxury of modern appliances.

Personalise the edge profile on your Corian® benchtop to create a classic elegance.

This kitchen space uses the textures of classic design to create a timeless space that suits any lifestyle.

Classic  
Corian®.

Soft tones. Soft edges. Warmth. Elegance. Create a dramatic and rustic ambiance that translates your personal taste using the range of classic Corian® colours. Use a fusion of mediums such as timber, and take advantage of the design features of Corian® to create the softness of a kitchen that is timeless.

Earthy tones make this Corian® kitchen warm and inviting.

This island bench creates the perfect workstation, while the bright Glacier White Corian® creates the appearance of light and spaciousness.

Apartment  
living made  
easy.

Corian® is the perfect solution to apartment living! Curve and mould Corian® into the perfect shape to fit any space. The ease of cleaning Corian® also fits into your lifestyle. Less time for cleaning and more time for life!

This apartment kitchen features a drop down edge. Add design features that compliment your style.

## Corian® - At Home in Apartment Designs.

This Corian® island unit is the perfect complement to an open plan design.

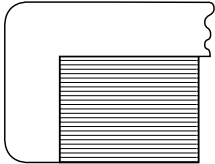

Curve Corian® into any apartment space and create a distinctive look.

# Edge profiles.

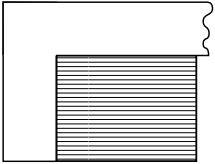

**Design  
Versatility.**

Give your Corian® a distinct edge. These are just a few of the edge profiles available for your application. Ask your Corian® supplier about the edges available – or create your own!

# Splashbacks.

## Easy Clean.

Enjoy a splash of colour. A matching splashback is the perfect way to dress up a Corian® top. Square splashbacks provide a simple, crisp look. With no failing grout join, coved splashbacks create a sleek, one piece look that's easy to keep clean.

Please note: Corian® splashbacks can only be used behind a cooktop where the clearance from the back burner to the face of the splashback is greater than 200mm. (Refer also to AS5601/AG601-2000 Gas Installations)

# Compare Corian®.

## Unique Performance.

Corian® combines the strengths of other materials to deliver a surface with unsurpassed practical advantages. It will challenge your perceptions of how a material should look, feel and perform. Corian® can be heat formed like glass, has the feel of silk, the hygienic properties of stainless steel, a high quality appearance like natural stone, renewable features similar to timber, plus joins that basically disappear! With Corian® you can also take comfort in knowing that all but the most severe damage is repairable on site.

\* Without having to remove entire benchtop. For more detailed information on how Corian® compares to other surface materials, please contact the Corian® Customer Service Centre.

Create a dramatic and relaxing bathroom with a luxurious custom design.

**Inviting.  
Convenient.  
Comfortable.**

Imagine a bathroom with no mould...no mildew...no grout lines... and easy cleaning! This dream can become a reality with a Corian® featured bathroom. Your bathroom should be inviting, convenient and comfortable. Inviting in its style and tones. Convenient in its ease of maintenance and solid durability. Comfortable in its feel and warmth. Only Corian® is all these things. Striking vanity bowls, vanity tops and bath and shower surrounds in Corian® create a personal retreat that lifts your spirit and comforts your soul.

Corian® is perfect throughout the entire bathroom space because it will not promote the growth of mould, mildew or bacteria.

## Corian® Bathroom Design.

Using bright Corian® in Glacier White brings brightness and a clean monolithic look into the bathroom space.

Corian® Fossil used as a vanity benchtop, and continues to the splashback. No fuss cleaning.

### Bowl Colours.

With 2 vanity bowl colours and a range of fashionable Corian® colours to choose from for your vanity top, it's easy to find a colour combination that expresses your personality and sense of style.

Note: All dimensions are external measurements.

Corian® seamlessly flows around integrated Corian® bowls.

With no open sink joins, the practical, hygienic nature of Corian® is a comfort.

## Allure

The Allure shower base has a shallow curved shape created by thermoforming Corian®. The non-porous nature of Corian® makes the Allure shower base totally hygienic. With no grout, minimal cleaning is required. Available in a selection of colours and sizes. Contact the Corian® Customer Service Centre for more information.

Allure - A fresh, clean, versatile shower base made with Corian®.

## Shower your bathroom space with Corian®

**Shower  
yourself  
in style.**

Breathe new spirit into your shower space with Corian®. In the shower, Corian® has a one-wall, continuous look that is sleek and contemporary. Warm to the touch and seamless to the eye, Corian® lets you surround yourself in style and enjoy a new cleansing experience. And only Corian® lets you soak up all the benefits of a luxurious surface without the maintenance. With no failing grout and hard to clean crevices, no other bathroom surface is easier to clean than Corian®.

With Corian® you can  
create a shower that is sleek  
and contemporary.

The Puddle® is pure indulgence - a subtle, shallow washbasin made with Corian®.

LOK by  
Trent® Feature  
Furniture

LOK utilises Corian® in an unconventional application taking advantage of it's inherent properties, including durability and weather resistance, to create a range of furniture that is just as at home inside as in outdoor environments. These amazing designs which include a clear glass top, and a Corian® crafted base achieve a unique aesthetic that draws people in to take a closer look. LOK is available in standard sizes but can also be customised to suit the design and dimensional requirements of a large range of projects whether commercial or domestic. All products in the range include absolutely no fixtures (no screws/ bolts/ glues) whatsoever. Instead, each of the components simply slide together, and utilize the glass top as the 'key' to lock the whole design together.

"The LOK range is an expression of curiosity, using minimal components and no joints or fixtures, the design inspires people to look beyond the surface, encouraging them to understand and appreciate all of the elements that contribute to the design as a whole."

*Trent Barrett, creator of LOK.*

## Inspirational Corian® Designs for other rooms in the home.

EcoSmart Fire Igloo by The Fire Company is a stunning design featuring a toughened glass surround, Corian® floating bench and stainless steel fixtures. A remarkable design that generates remarkable warmth!

The translucent beauty of Corian® softly glows in this thermoformed lamp.

Let Corian® flow through your home.

Use Corian® with other materials to create a dining table to match the decor in your home,

Let it rain without worry on this outdoor Corian® benchtop.

Say hello to the future.

Corian® is popping up everywhere these days. In furnishings and lighting. In art and architecture. Anywhere from a mantelpiece to a shelf to a window sill. You can even find Corian® meeting the challenge of many outdoor applications. And who knows? Maybe you'll think of a place where Corian® would be just perfect that no one else has dreamed of before.

A striking Corian® table is a stylish addition to your living space.

# Corian® care.

## Easy living.

Depend on Corian® to make your life easier. By nature, Corian® is easy to clean, easy to care for and easy to live with. Corian® is unlike any other material and there is a unique way to look after it. So let go of any assumptions you might have about caring for Corian®!

## Corian® care options.

Corian® is a trouble-free surface that enjoys amazing practicality. Because Corian® is non-porous liquids can't be absorbed. That means total hygiene and a stainfree surface. Spills disappear effortlessly with a damp cloth or sponge and a simple wipe. Even stubborn stains like red wine, curry paste, beetroot, food acids and oils are no match for Corian®. A firm wipe with a damp sponge and a mild abrasive cleanser will ensure your Corian® surface sparkles.

## Corian® prevention tips.

Remember, prevention is better than cure. By following the prevention tips outlined in our Corian® Care & Prevention brochure, your surface will continue to perform and to look good for many years to come.

Corian® is not a cutting surface. Be sure to use a separate cutting board to avoid deep scratches and the blunting of your knives. Please ask your kitchen company or Certified Fabricator for a Corian® preparation board to be supplied with your new benchtop. Though heat resistant, we recommend using a heat pad or trivet to prevent excess heat from marring your benchtop.

## Corian® renew & repair.

Corian® was created for life. So even after years of constant use and unexpected mishaps along the way, you can take comfort in knowing that practically anything can be renewed or repaired – a feature unique to Corian®. Renewing your benchtop is a no-fuss, on-site facelift for your existing Corian® benchtop – simple, economical and environmentally friendly. Renewing your benchtop allows you to take comfort in knowing that all but the most severe damage can be repaired on-site by a DuPont Certified Fabricator. For more information contact the Corian® Customer Service Centre on 1800 267 426.

# DuPont Corian® and the environment.

## Corian® is environmentally friendly.

The true colour of Corian® comes through in a number of environmentally friendly ways. Corian® is repairable, renewable and lasts a long time, which minimises the need to replace or dispose of it. Corian® can be reworked to create new designs and products, generating up to one-third less waste than stone in the fabrication process. Corian® is chemically inert and non-toxic, meeting the most restrictive "food zone" standards. DuPont carefully manages the impact that Corian® has on the environment through responsible choices in raw materials, manufacturing processes and packaging.

# Your Corian® quality guarantee.

## 10-year peace of mind.

Year after year, with proper care, Corian® will remain as beautiful and elegant as the day it was installed. And DuPont stands by its products with a 10-year warranty on product and installation.

## Warranty service centre.

DuPont, the creator of Corian® - the original solid surface material - continues to lead the industry with its strong warranty program and comprehensive Warranty Service Centre dedicated to outstanding after-sales customer service.

## Register your warranty certificate.

In order for us to fulfill our promise to you of years of worry free use with Corian®, please ensure you fill in your DuPont Corian® Warranty Certificate and return it to us. We'll then register your new Corian® surface in our national warranty database.

## Quality network.

Our team of DuPont Certified Fabricators and Installers are trained in the latest DuPont techniques for working with Corian® solid surfaces. And they're committed to delivering the highest levels of quality and customer service.

# At your service.

## Your Corian® experience.

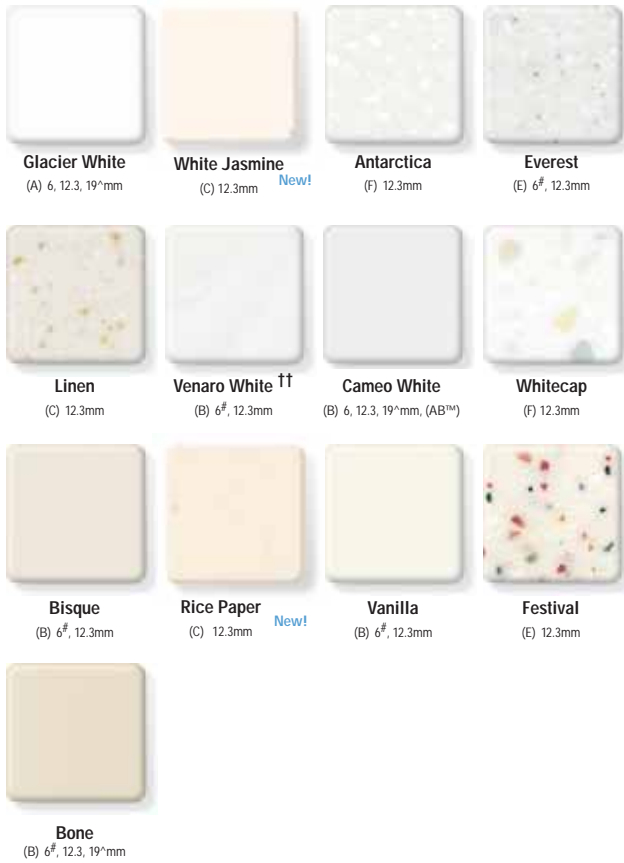

Continued satisfaction makes Corian® a global leader in solid surfaces. Our future depends on meeting your needs and ensuring your experience with Corian® is enjoyable and memorable. CASF Australia, the suppliers of Corian® products, are at your service. Please do not hesitate to contact our Customer Service Centre or Warranty Service Centre on 1800 267 426.

# Selecting the Ideal Colour of Corian®

The colours you choose speak volumes about your imagination, your character and your spirit. As tools for self-expression, Corian® offers the largest palette of colours in its class. The Colors of Corian® are organised into 10-sub-palettes, complementing the range of materials used in today's homes.

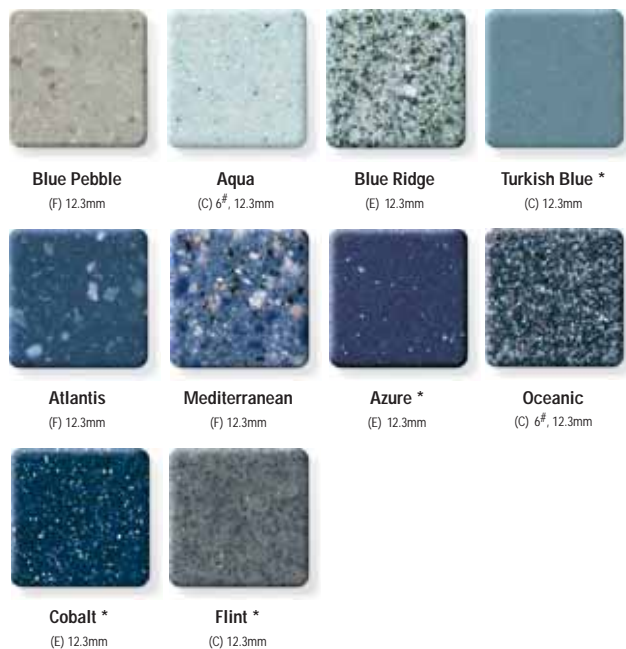

## Extra Lights

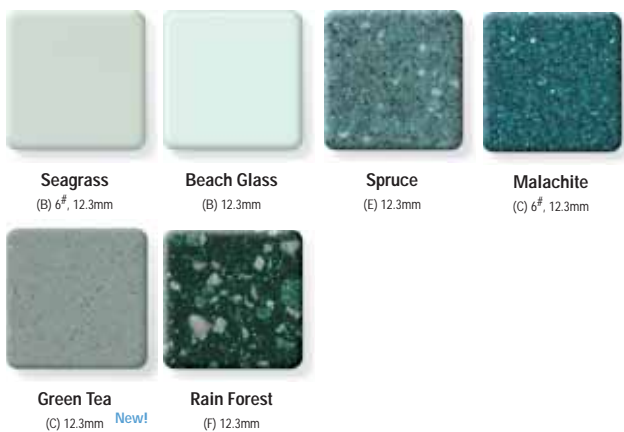

## Beiges

## Blues

## Greens

### Selecting the Ideal Colour of Corian®

To ensure you gain the greatest satisfaction from owning and living with Corian®, please consider the following information when selecting your colour: When choosing your colour of Corian®, keep in mind that like most materials, dark, heavily pigmented colours are more sensitive and require more care and attention to maintain their look. Dark colours of Corian® tend to show every day wear and tear more readily in high-use horizontal areas (e.g. kitchen benchtops). These colours are marked with an asterisk (\*). To ensure we meet your expectations, customers should be aware of the extra care needed.
