Kitchen Make-over for the Van Ruth Family

Sharman van Ruth and her 2 daughters Lauren (16) and Maggie (14) are universally liked and respected for their hard work and dedication. Tragically, Lauren was diagnosed in 2008 with bone cancer cutting short a promising dance career. Despite being voted the best clinical nurse at St George Hospital, Sharman had to reduce her work commitments to care for Lauren during her treatment. Although Lauren is now recovering and back at school, the family has done it tough.

Domestic Blitz decided to make life a bit easier for the family with a total kitchen makeover. SCF was happy to help. The kitchen features a Hanex "Casablanca" solid surface bench top.
