Solid Surfaces

high performance solid surface
staron.com.au

Staron® Solid Surfaces is manufactured from a natural mineral refined from bauxite and blended with pure acrylic resin to create a high performance solid surface. Staron® Solid Surfaces are suitable not only for commercial projects, but for endless applications around the home including kitchens, bathrooms and laundries.

Flexible in Design

With a range of over 80 colours to select from, Staron® offers the most extensive range of solid surface in Australia. Staron® is both aesthetically and functionally pleasing. It can be thermoformed into flowing curves or sculpted into any shape imaginable. The flexibility of Staron® extends to limitless edge profiles, drop down edges, splashbacks and tile coves. Selected Staron® colours are also translucent and can be backlit to bring your design to life.

Hygienic, Durable & Repairable

The non-porous nature of Staron® provides a surface that no stain can penetrate - providing a durable benchtop that is hygienic and easy to clean. Staron® is also repairable and renewable. Even after years of use it can simply be sanded, thus restored back to its original condition. Staron® does not have any finishing polishes or sealers applied, it is the same solid material throughout its thickness. Because of this nature, every wipe to your benchtop will rejuvenate the surface.

Monolithic

Staron® creates long and wide continuing surfaces with no open or conspicuous joins. With a collection of integrated Staron® kitchen sinks and vanity bowls – a smooth benchtop space can be created. No dirt trapping joins or crevices to clean, just one continuous surface that looks and performs like one piece.

10-Year Limited Warranty

Staron® is an affordable quality solid surface backed by a 10-Year Warranty for peace of mind. Staron® is a homogeneous and solid mineral-filled acrylic polymer material so that it is easy and convenient to care for and maintain. Simple routine maintenance is required to keep it looking new and fresh. For full warranty details, and to register your warranty visit: www.staron.com.au

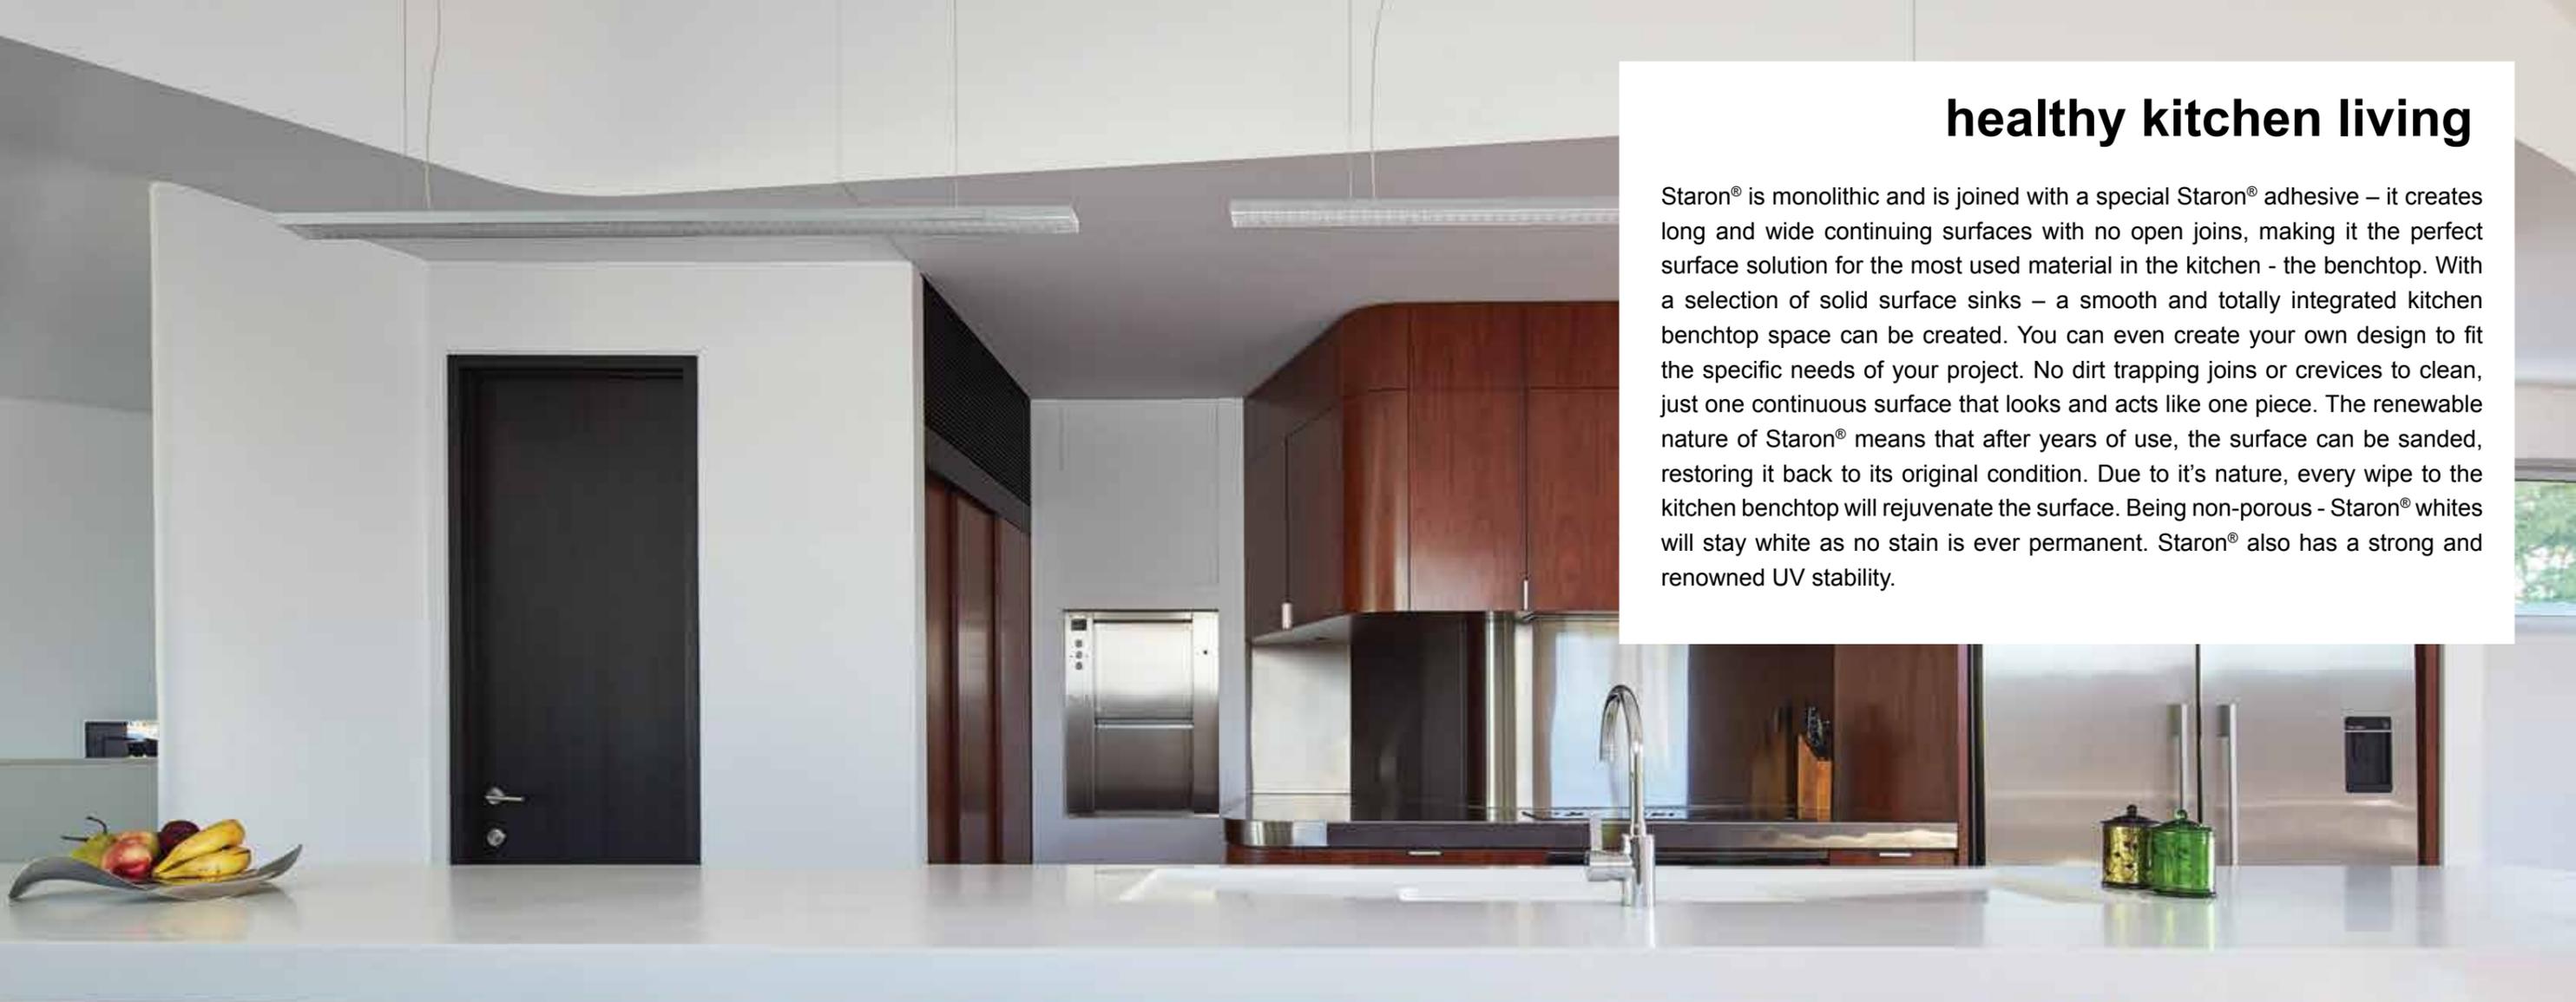

ABOUT Austaron Surfaces

Austaron Surfaces are the proud distributors of Staron® Solid Surfaces. Austaron Surfaces was established with an aim to provide quality surfaces and finishes to the Australian market. Austaron's product range is utilised by designers, architects, retailers, builders and also extends to consumers. Our products are used across many industry segments including but not limited to: retail, healthcare, entertainment, food service, office fit-outs, residential and many commercial projects. With an industry experienced sales team based in all states of the country, the business works together with project managers and designers on projects from the specification stage, all the way through to delivery of the product. For more information on Austaron Surfaces and their product portfolio, visit: www.austaron.com.au

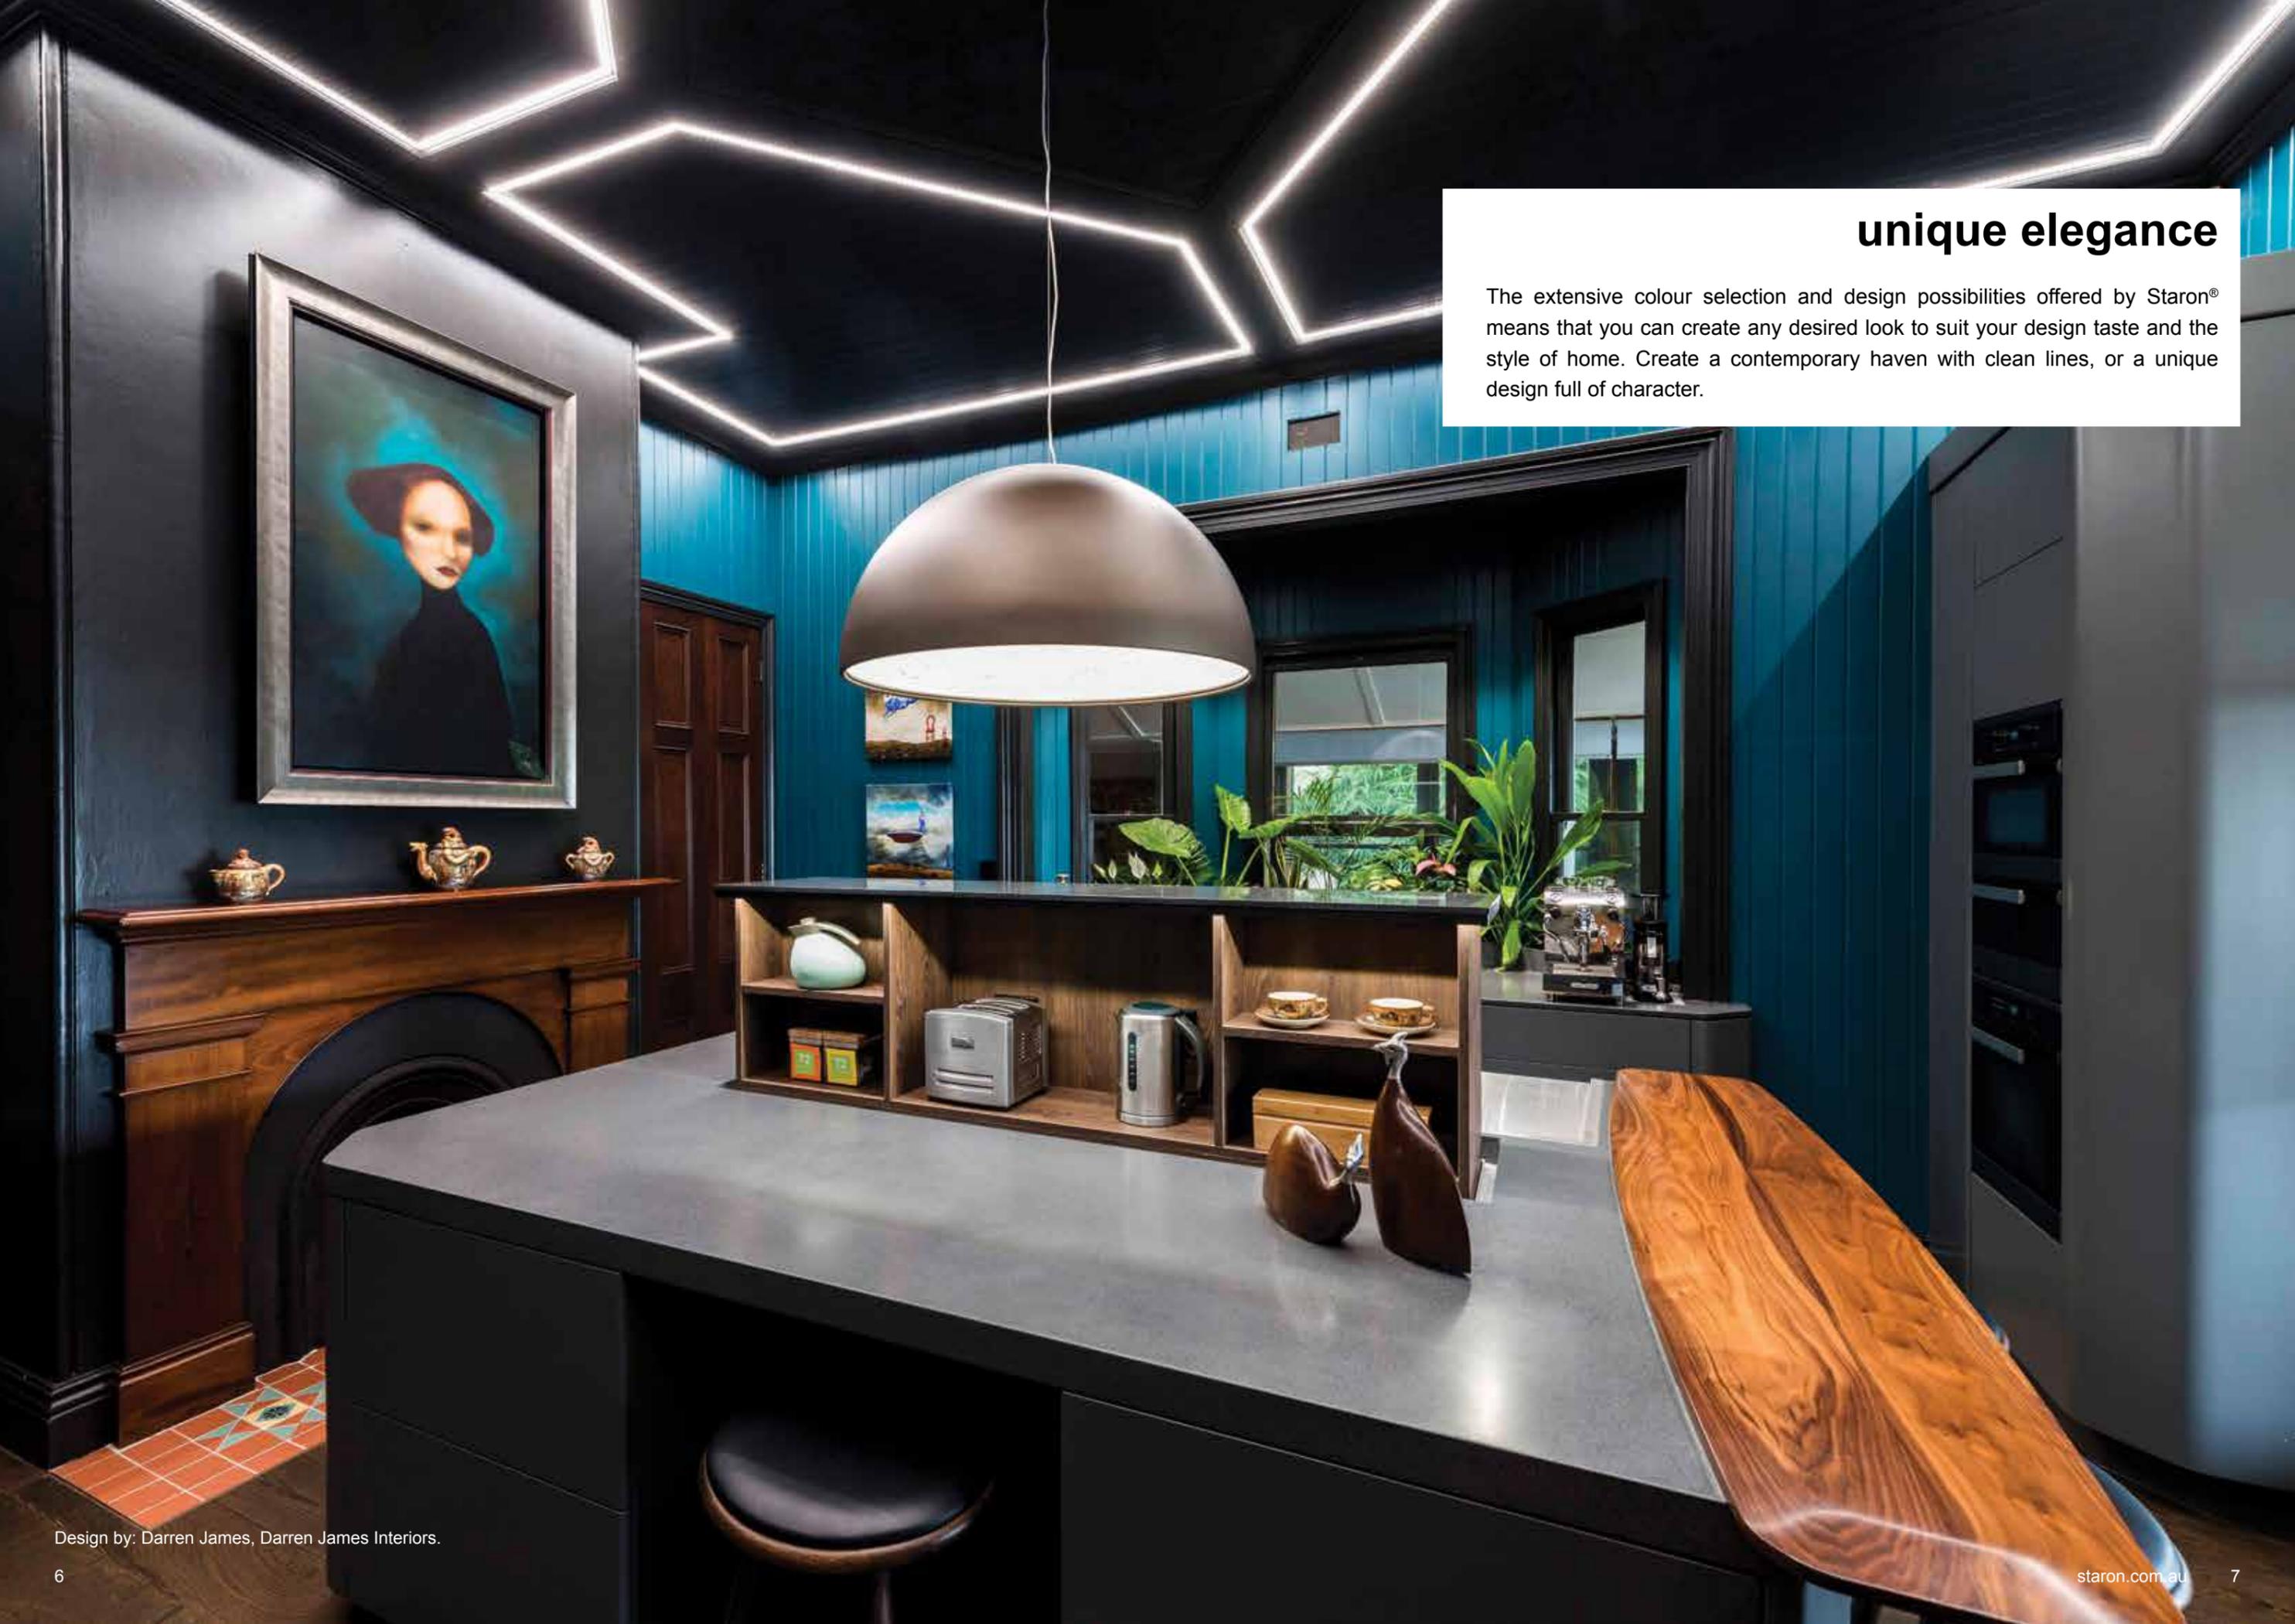

healthy kitchen living

Staron® is monolithic and is joined with a special Staron® adhesive – it creates long and wide continuing surfaces with no open joints, making it the perfect surface solution for the most used material in the kitchen - the benchtop. With a selection of solid surface sinks – a smooth and totally integrated kitchen benchtop space can be created. You can even create your own design to fit the specific needs of your project. No dirt trapping joints or crevices to clean, just one continuous surface that looks and acts like one piece. The renewable nature of Staron® means that after years of use, the surface can be sanded, restoring it back to its original condition. Due to its nature, every wipe to the kitchen benchtop will rejuvenate the surface. Being non-porous - Staron® whites will stay white as no stain is ever permanent. Staron® also has a strong and renowned UV stability.

Kitchen benchtop in Staron® colour: Pearl. The Staron® continues from the benchtop to the sides and front of the island to create an integrated book storage shelf.

Architect: iredale pedersen hook architects.

unique elegance

The extensive colour selection and design possibilities offered by Staron® means that you can create any desired look to suit your design taste and the style of home. Create a contemporary haven with clean lines, or a unique design full of character.

award winning design

Staron® has been used all around the world by respected designers to create award winning designs. The product offers diverse flexibility in design to create simple projects, or an intriguing work of art.

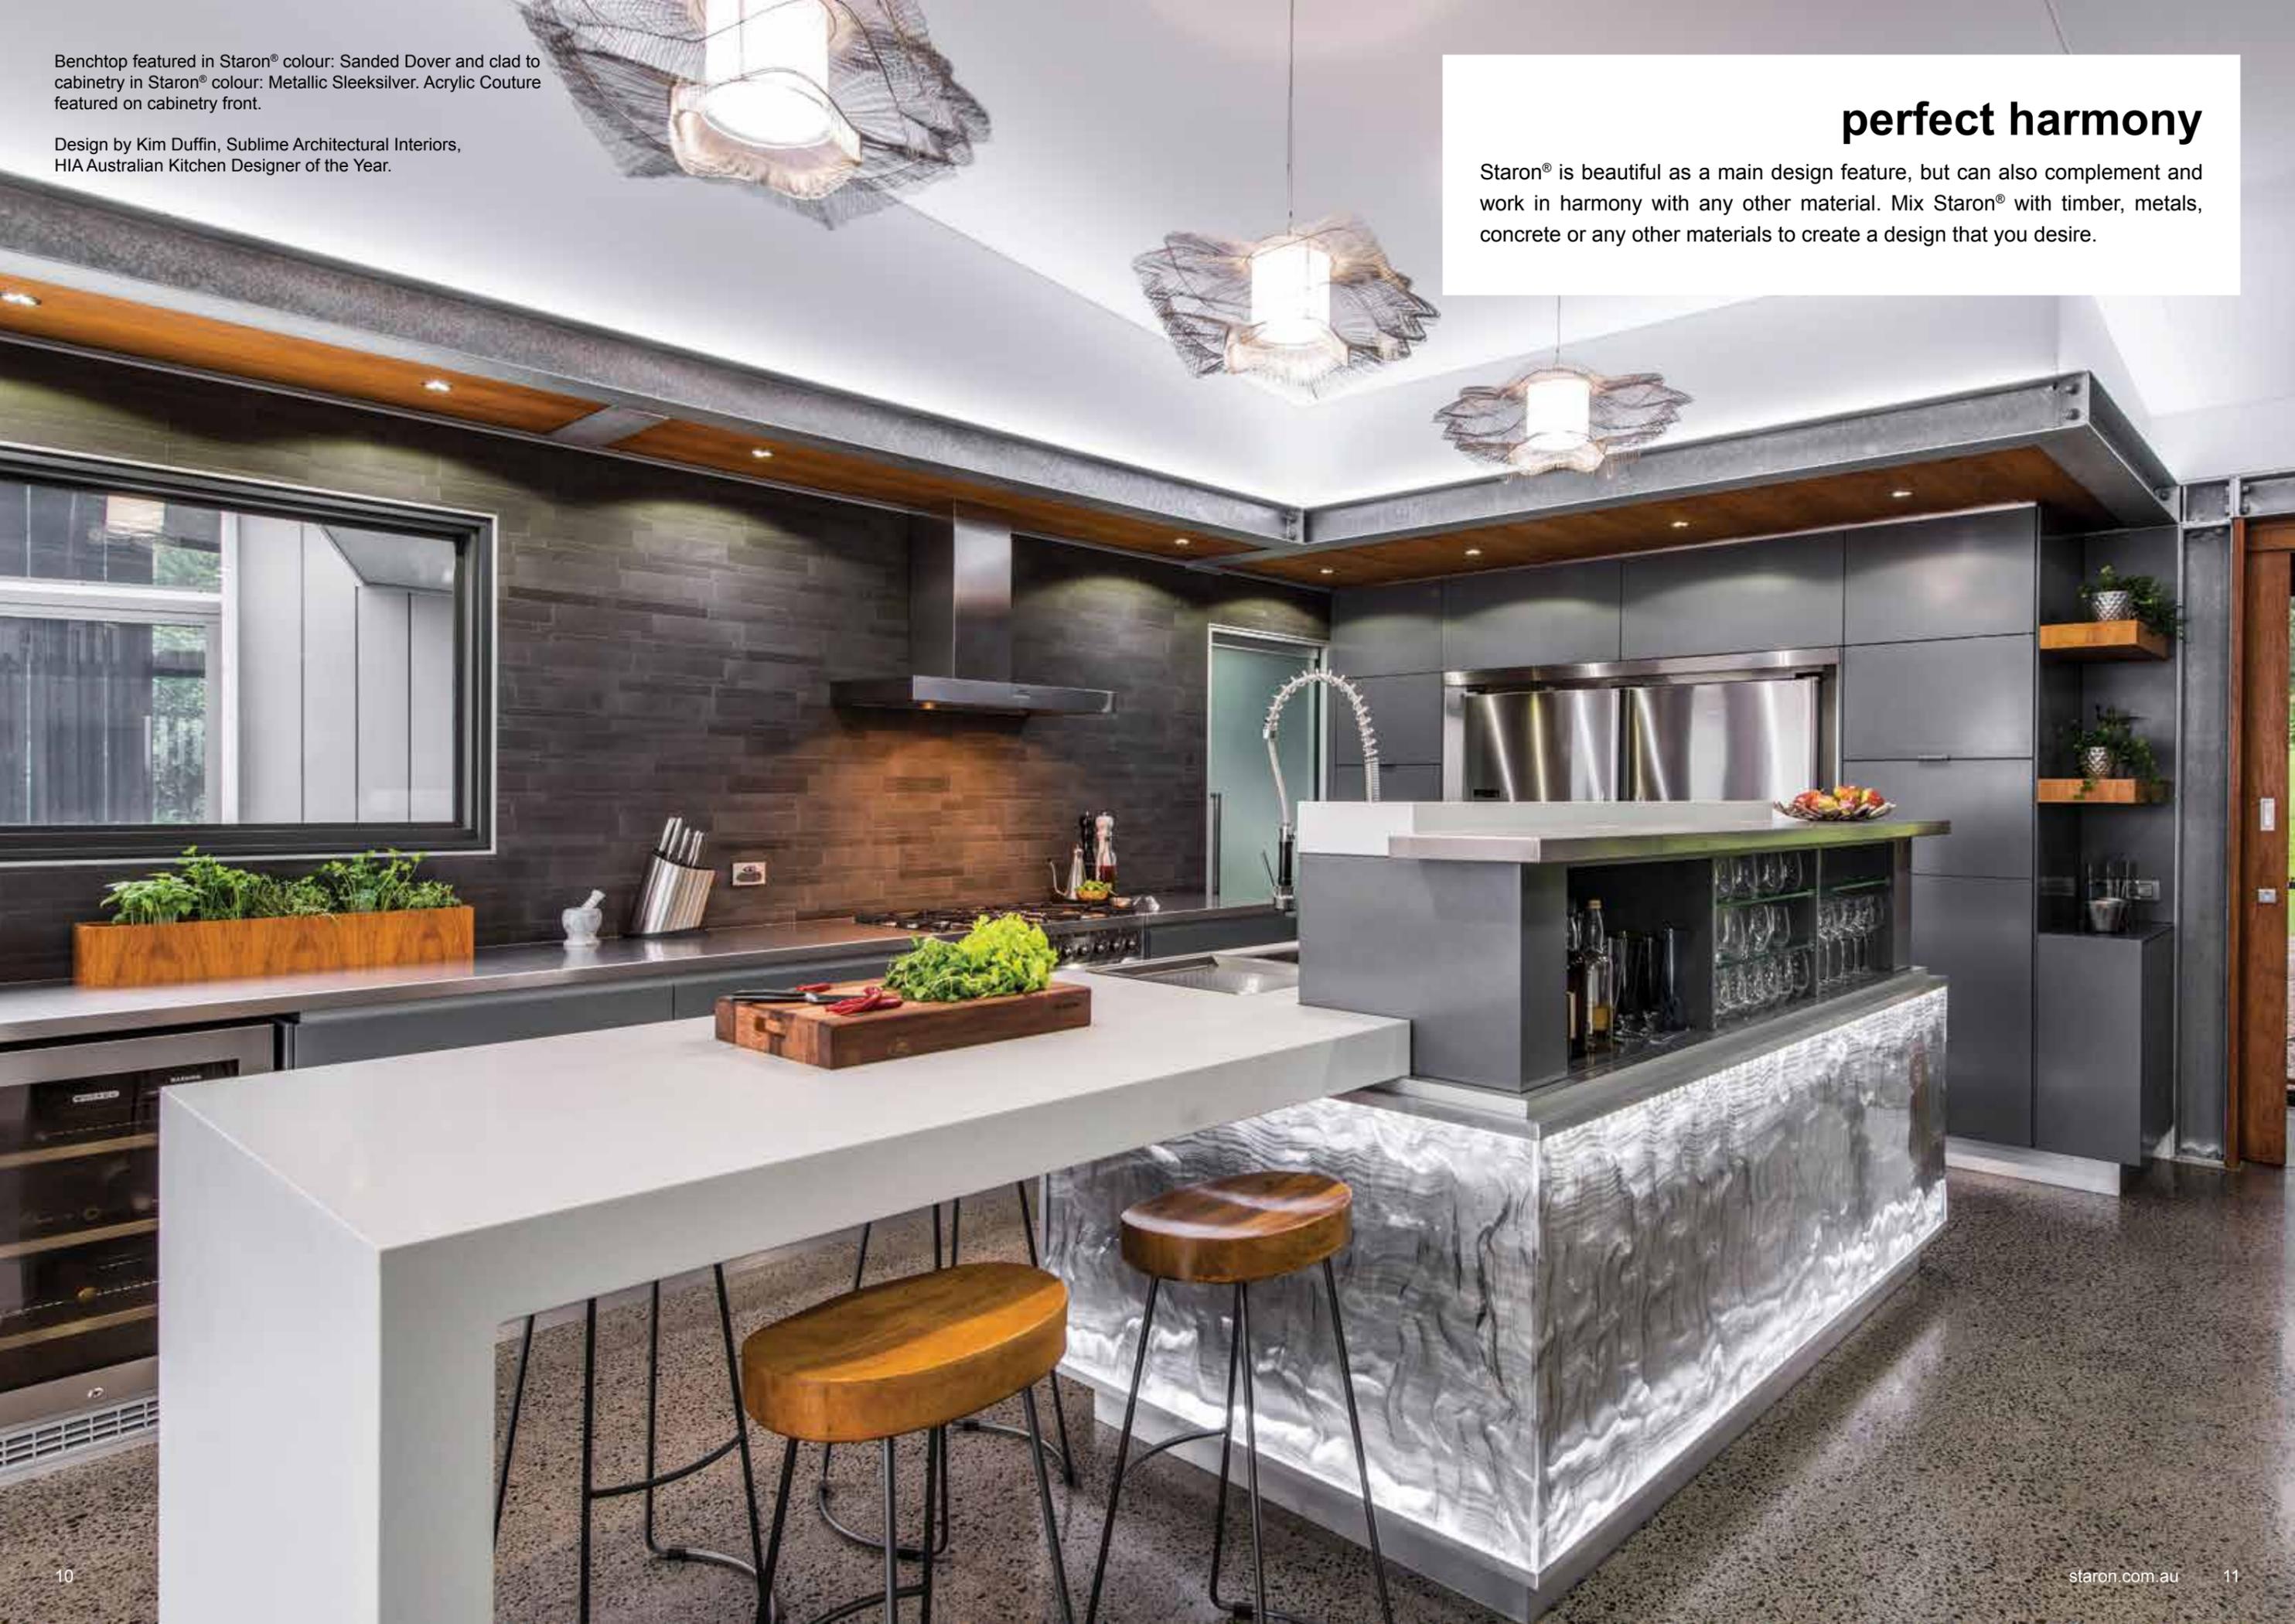

Benchtop and angled splashback featuring integrated wave pattern grooves in Staron® colour: Quasar White.
Design by Lee Hardcastle, Enigma Interiors, KBDi Australian Kitchen Designer of the Year.

Benchtop featured in Staron® colour: Sanded Dover and clad to cabinetry in Staron® colour: Metallic Sleeksilver. Acrylic Couture featured on cabinetry front.

Design by Kim Duffin, Sublime Architectural Interiors,
HIA Australian Kitchen Designer of the Year.

perfect harmony

Staron® is beautiful as a main design feature, but can also complement and work in harmony with any other material. Mix Staron® with timber, metals, concrete or any other materials to create a design that you desire.

beautiful surfaces, easy maintenance

Staron® is kinder on dishes and quieter when it comes to impact of glasses, crockery and cutlery. Due to its durability, the material will maintain its look for many years. When most other materials need replacing, Staron® continues to perform. Staron® can be used in endless applications throughout a house or apartment environment. Extend Staron® past the benchtop into the splashback for an integrated finish. Other design options such as integrated heat rods, drainers and a large selection of edge profiles are also available. The possibilities are endless, and the ideas are only limited by your creativity.

smooth bathroom surfaces

Create a warm and tranquil bathroom environment that will transform into a sanctuary. Use Staron® to create formed vanity bowls, vanity tops, walls, floors, shelving and bath tubs.

With a smooth finish, Staron® provides a continuous surface with no open joints. Use one the standard solid surface vanity sinks - or push the boundaries of design by creating a custom vanity space. Use long drop down edges and curves for a dramatic elegance that is unique in design and function.

Motif Basin made with a piece of hand-etched glass for the base, and fitted with thermoformed Staron® surround and benchtop in colour: Bright White. Design by: Thomas Coward for Omvivo.

mould and mildew resistant surfaces

Use Staron® to create a thermoformed bath tub that will feature as an art-like structure in the bathroom. Continue Staron® to the bath surrounds for an integrated look that is easy to maintain. Combined with a Staron® vanity top, this high use wet area will be totally renewable. With a large selection of colours to choose from, Staron® will suit any taste. Non-porous in nature, no stain can penetrate into the material - providing a functional and aesthetically pleasing surface.

Imagine a bathroom with no grout lines! Staron® wall panelling provides a smooth and monolithic finish with no dirt-trapping crevices, no mould and no mildew. Staron® prevents the growth of bacteria or mould making cleaning easy, along with healthy living and creative design possibilities.

Staron® featured on kitchen benchtops, splashbacks and extends to the alfresco area table top and BBQ surrounds in colour: Aspen Glacier. Staron® also clad to cabinetry in colour: Quasar White

Design by Kim Duffin, Sublime Architectural Interiors, HIA Kitchen Designer of the Year.

outdoor living & other rooms of the home

The durable and non-porous nature of Staron® makes it the perfect solution for any room in the home, including alfresco areas. Selected Staron® colours have a 10 year limited warranty for outdoor applications [contact your Austaron representative for a list of the selected colours], so you can create beautiful surfaces from the inside and continue it to the outdoors.

Staron® can also be utilised in the laundry as durable and seamless work tops. It can be used as furniture including dining tables, side and coffee tables, even seating. The renewable nature of Staron® also means that the surface can easily be buffed after years of use - extending the life of your application and ensuring it always looks good, even in a busy family home.

The use of Staron® for furniture allows you to extend into the home office to create integrated desks. Make interesting designs by routing or carving into the surface, inlay multiple colours of Staron®, or extend Staron® to interesting table bases for an integrated look. Create chairs, cabinets, storage solutions, shelving and unlimited other applications. If you can dream it, you can create it with Staron®.

intelligent design options

integrated sinks

When a Staron® sink is joined to a Staron® benchtop, it looks and performs as one continuous piece of surface, creating a one-wipe flow from the benchtop into the sink. Staron® has a selection of standard sink designs, or create something custom to suit your needs. For the entire range of solid surface sinks, see pages 24-25.

benchtop, tile cove and splashback

Extend your Staron® benchtop to include the sink and splashback for an integrated and monolithic finish. The surface will continue with no open joints. A tile cove offers a smooth and clean finish at the back of your benchtop, where the benchtop meets the splashback. A 10mm tile cove will eliminate dirt and germ crevices and allow a smooth join to your splashback.

endless edge profile options

Staron® offers the design flexibility and freedom to create your own custom and personalised edge profile. Ask your Certified Staron® Fabricator about the endless edge profile options available. Most benchtops in Staron® are a standard 38mm thick, however, the flexibility of Staron® means that any benchtop thickness can be created with minimal effort, while staying within your budget. Many other materials only offer a 20mm standard thickness.

clad to door and drawer fronts

Create an integrated look by cladding Staron® to cabinetry. With the easy maintenance and durability of Staron®, your cabinets will be a beautiful feature and create easy living.

Other Staron® design options:

Waterfall Edges

Integrated Heat Rods

Integrated Drainer

Illumination

wall cladding, shower walls and floors

Use Staron® to create monolithic shower walls, shower floors and wall cladding to make wet areas that have no grout, no mildew and no mould, just easy living!

curve it

The thermoformability of Staron® means that you can curve it into any shape imaginable!

bath tubs and surrounds

Wrap your bath tub or create a bath tub entirely from Staron®. With a warm touch and easy maintenance, it is the perfect bathroom surface solution.

vanity basins and sinks

With a range of standard Staron® vanity basins, create a vanity top with no open joints or dirt trapping crevices. For the entire range of solid surface sinks and vanity basins, see pages 24-25.

vanity benchtops

Create monolithic Staron® benchtops that flow effortlessly onto Staron® walls for a clean and integrated look.

*The **Classic Custom Colour Sink** is available in any current Staron Solid Surface colour.
Entire **Classic Collection** also available in colour Pearl by special order - minimum quantities may apply.

Benchtop Comparison

Staron® has unique performance properties. When you are researching your benchtop surface take into consideration that the benchtop is one of the most used materials in the kitchen. Therefore, your benchtop choice should offer beauty and function. Here is a comparison of benchtop materials:

SURFACE	NON-POROUS	RENEWABLE	SEAMLESS	UV STABILITY	HYGIENIC
Staron® Solid Surfaces	✓	✓	✓	✓	✓
Laminate	✗	✗	✗	✗	✓
Marble	✗	✗	✗	✓	✗
Reconstituted Stone	✗	✗	✗	✗	✓
Stainless Steel	✓	✗	✓	✓	✓
Tiles	✓	✗	✗	✓	✗
Timber	✗	✓	✗	✗	✗
Granite	✗	✗	✗	✓	✗

Staron® Environmental Sustainability

Staron® is non-toxic creating a safe environment for nature, people and animals. It has a **GREENGUARD** Certification which means that the product is safe for use in indoor spaces, meeting strict chemical emission limits, which contribute to the creation of healthier interiors. Staron® also meets the criteria for the more stringent **GREENGUARD GOLD** Certification which means that it is a safe product for use in environments for sensitive individuals such as children and the elderly, making Staron® acceptable for use in environments such as schools and healthcare facilities. The renewable and repairable nature of Staron® also extends its life span creating less need for waste.

Staron® Surfaces has been awarded a SCS Material Content Certification by Scientific Certification Systems, a leader in certifying independent environmental claims. The certification recognises Staron® for the use of pre-consumer recycled materials in several of its surfacing colours. The certified colours make the Recycled Collection and can be seen on pages 27-31 displaying the  symbol.

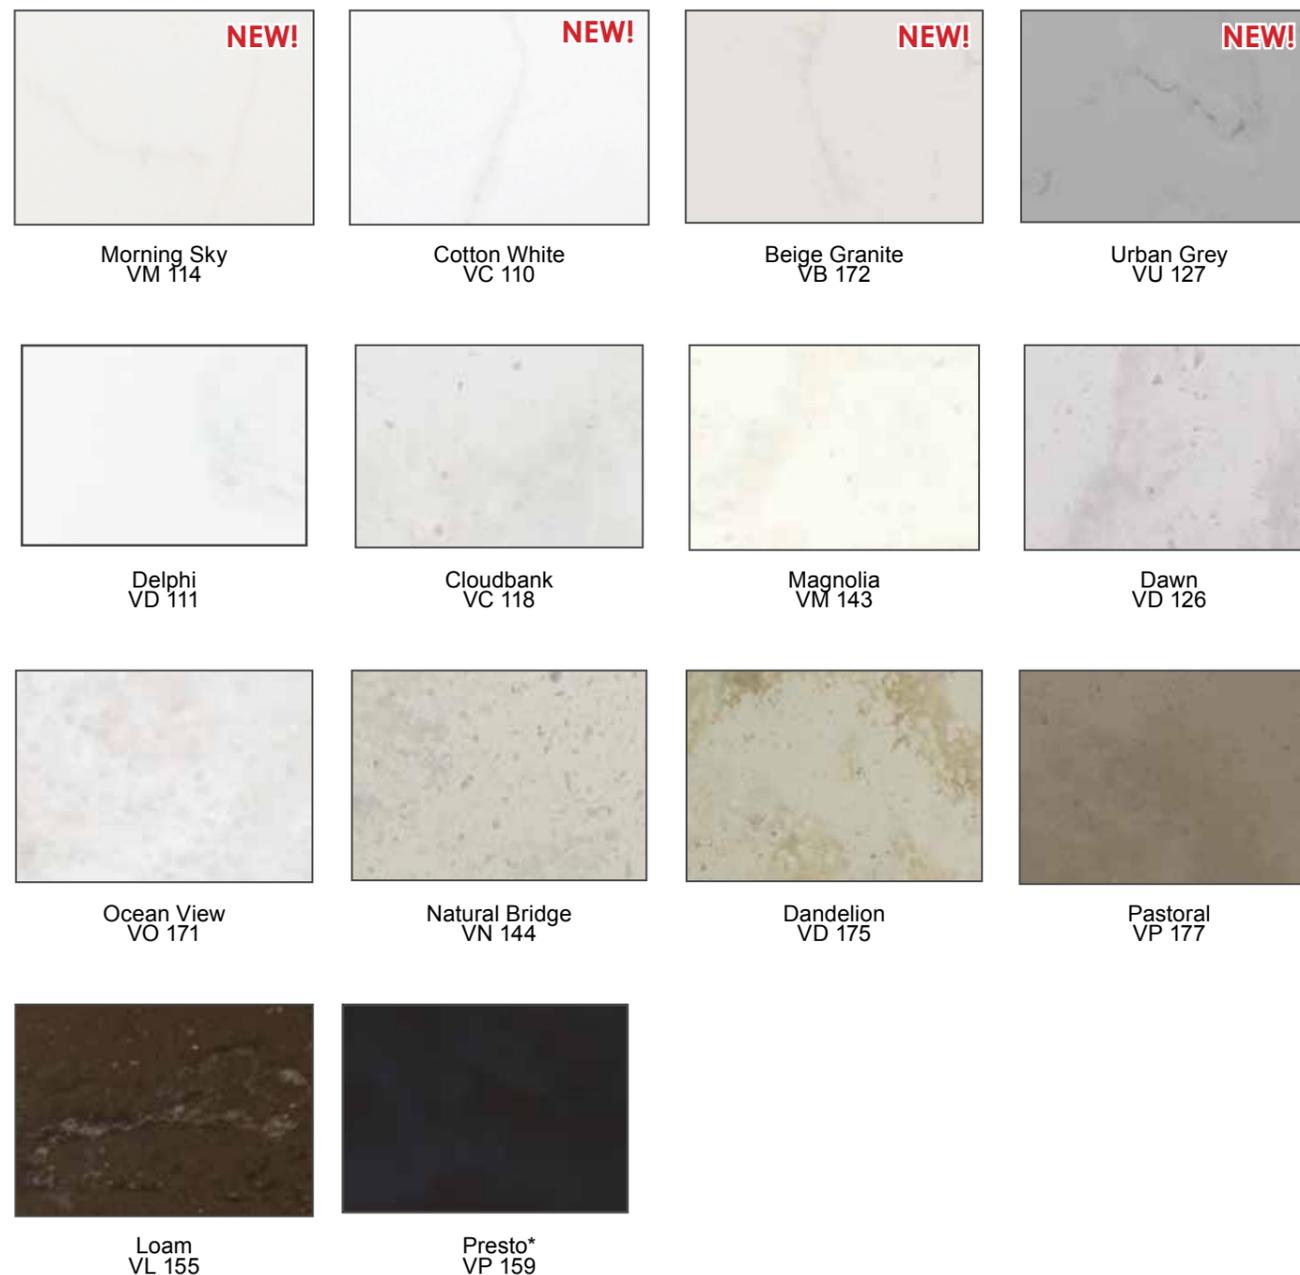

Staron® Simple Cleaning & Maintenance

Most dirt and stains are easily cleaned by using warm soapy water or an ammonia-based cleanser. For a deep clean, use a white Scotch-Brite® pad and a mild-abrasive cleanser such as Jif and clean in a circular motion. Complete the clean by wiping with a soft damp cloth. These steps will rejuvenate the surface, buff away fine scratches, and keep your Staron® surface looking fresh and clean for many years to come. Detailed information about caring for Staron® can be found at staron.com.au

INSPIRE YOUR DESIGN WITH STARON® COLOURS

SUPREME™ COLLECTION

The Staron® Supreme™ Collection adopts the look and beauty of natural stone, while taking on the advantages of easy maintenance and joining capabilities of a solid surface. The Supreme™ Collection features beautiful distinct wave patterns in different hues.

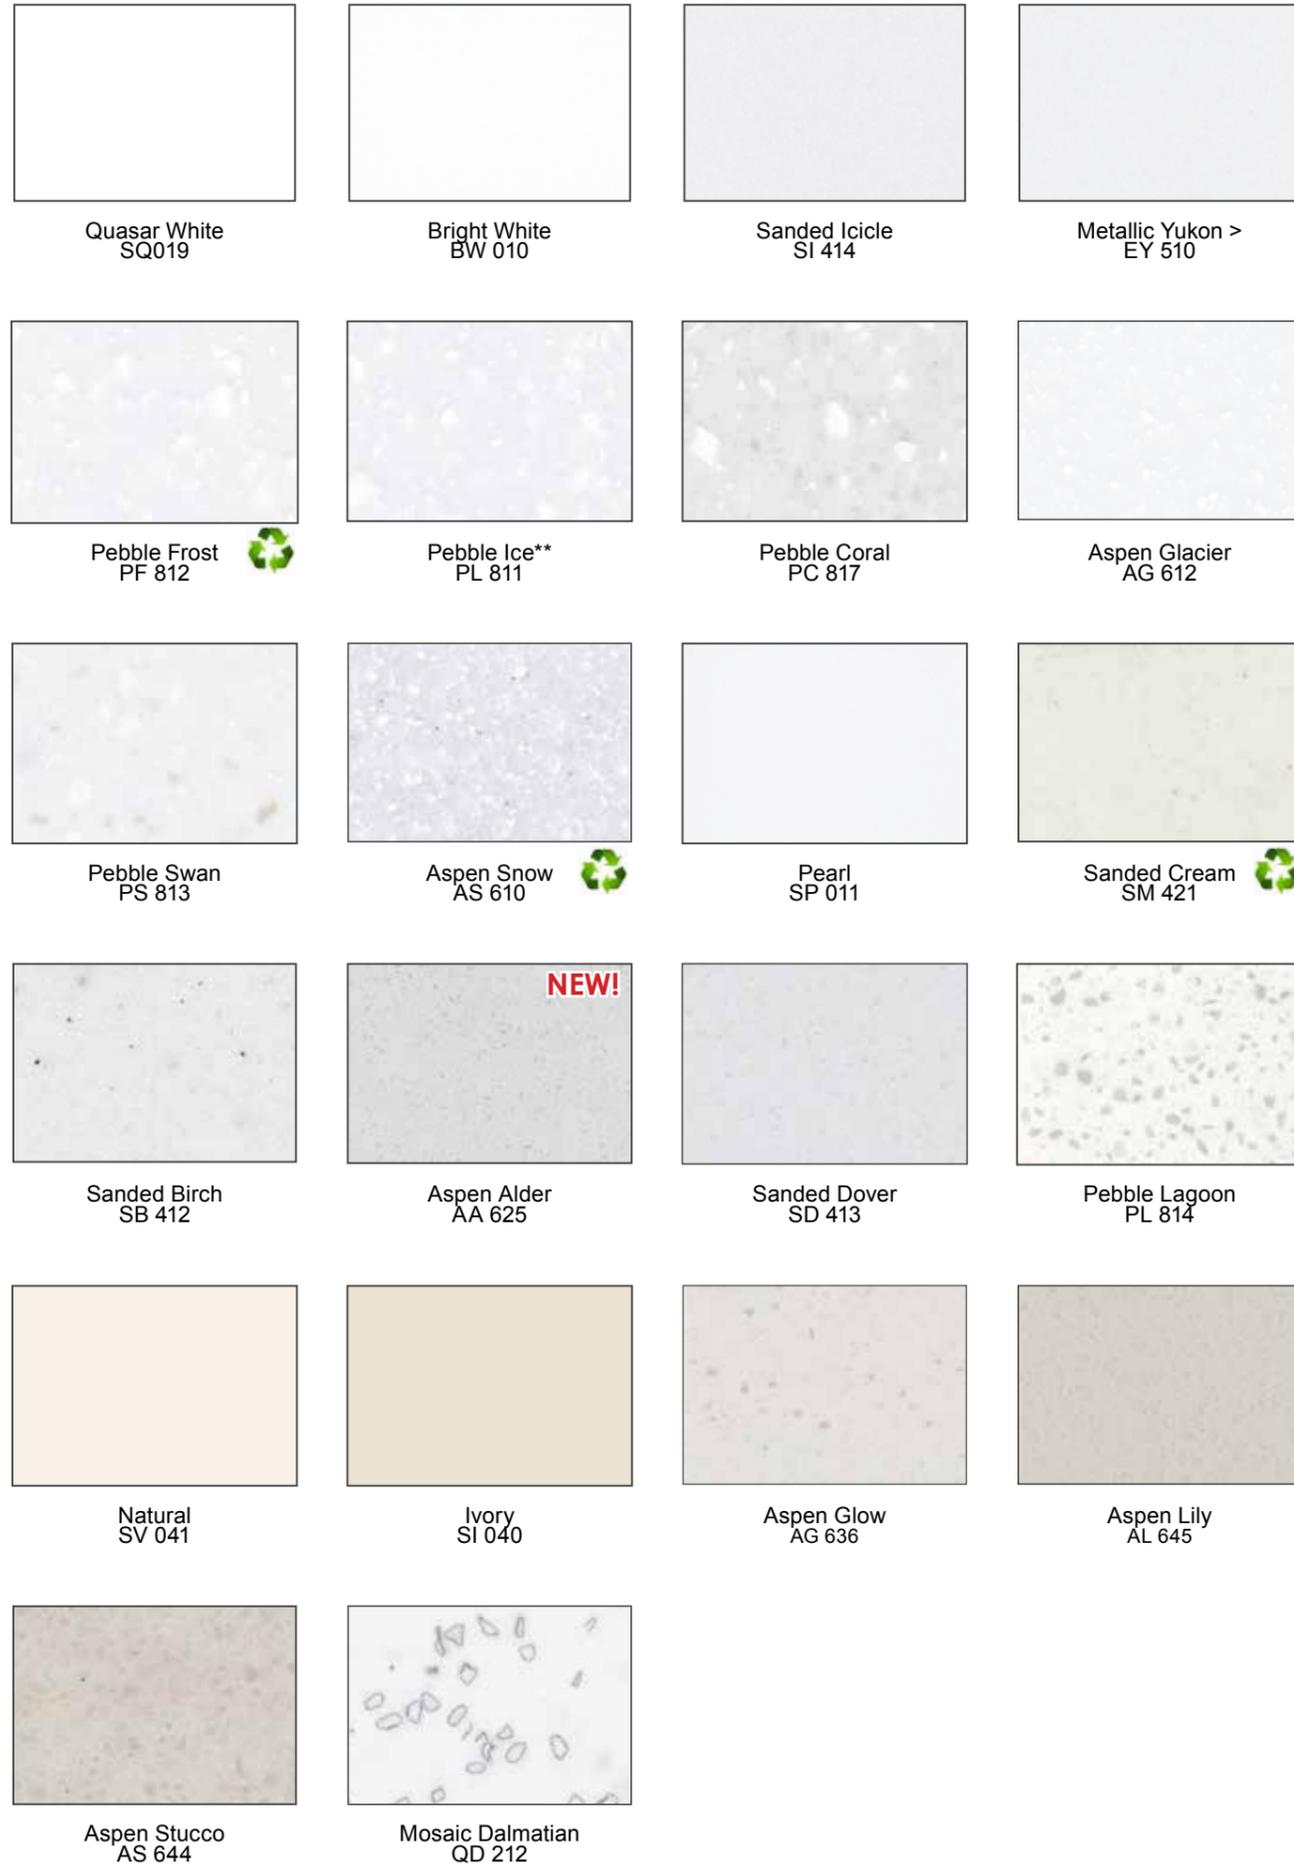

Supreme™ Collection: The above colours of Staron® are representations only. Due to the veined nature of the Supreme Collection, there may be a subtle difference between the printed representation and the real material. Please view a product colour sample to ensure you are happy with your colour selection. Please discuss how joins will appear in your application with your fabricator.

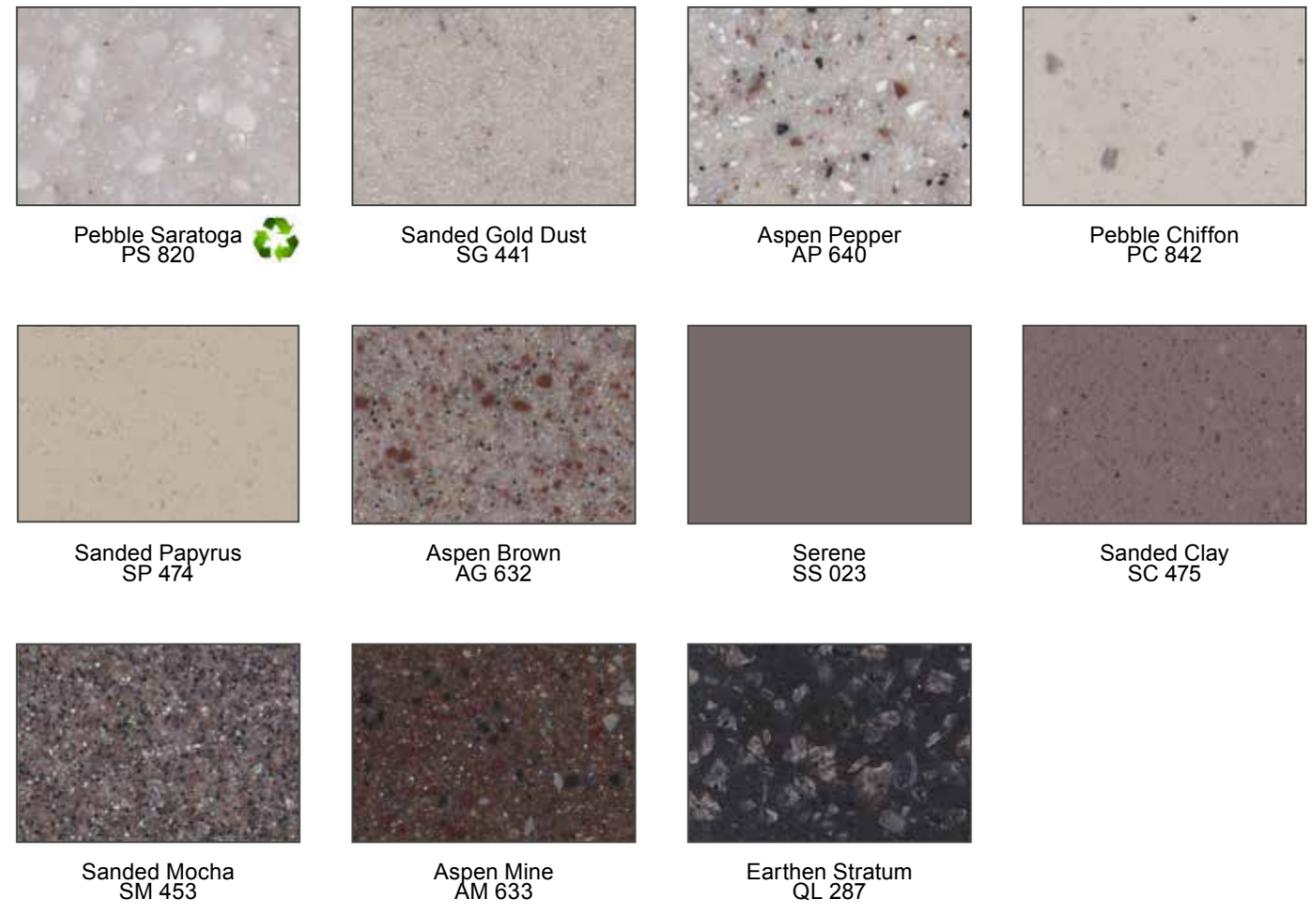

**Pebble Ice contains a fine scattered earthy coloured chip. Please see a large sample before selecting this colour for your project.

 * ^ > Please read the information titled 'Staron® Colour Selection' on page 31 regarding selecting your colour.

Staron® Colour Selection

The printed colours of Staron® are representations only. Please see a product sample to ensure you are happy with your colour selection.

Pricing: The colours of Staron® Solid Surfaces: The common group names used on all the colours of Staron® represent the price range that each colour is in. From most expensive to most affordable the price ranges are in order by:

1. Supreme;
2. Tempest;
3. Mosaic, Metallic, Quarry, Pebble, Aspen;
4. Sanded and solid bold colours;
5. Solid - plain colours;
6. Bright White.

Recycled Collection: Colours that display the  symbol are a part of the Recycled Collection and contain a guaranteed percentage of pre-consumer recycled resin and chip content. For more information on the Recycled Collection, please visit staron.com.au

* Darker colours may show every day wear and tear, including light scratching, more readily in high use horizontal areas (eg. kitchen benchtop). To ensure we meet your expectations, customers should be aware of the extra care needed. Scratching is not considered a product defect and hence not covered by the 10 year warranty. These colours are marked with an asterisk (*).

^ Colours marked with this symbol must be checked for availability with Austaron Pty Ltd.

> Colours marked with this symbol feature a metallic mica chip. If selecting one of these colours, please speak to your Certified Fabricator or Austaron Representative about how the look of these colours can change with different angled lighting.

Sheet thickness: All colours available in 12mm thickness. Quasar White, Bright White and Pearl available in 6mm & 19mm.
